FCC MAIL ROOM

Dear Bill:

Through the good offices of Vice President Gore, I was invited to file comments on the recommendation of the Joint Board vis a vis Universal Service pursuant to the PUBLIC NOTICE [DA 96 1891] released November 18, 1996. Because I was deeply involved in preparing an action in this matter before the Florida Supreme Court, I elected to file reply comments with the deadline to meet of January 10, 1997. I met that deadline and am enclosing copies of the letters of transmittal covering each of the shipments of copies to your Office, and a Certificate of Service covering those parties outside of the FCC organization.

For a guy on a fixed income attempting to perform a public service, this was quite a feat and a substantial expense. Needless to say, I was quite dismayed when told by Lori Wright that there was no record of logging my submission into your file, and that she did not receive a copy from those that were supposed to have been distributed internally.

I am sure that ITS received their set of documents which was sent separately, but at the same time as the original and four copies required for filing pursuant to instructions. The mailing was receipted at the post office on January 8, 1997, and conveyed via Priority Mail for guaranteed deliver on or before January 10, 1997, which was your deadline.

I received no acknowledgement and am extremely anxious to make certain that my effort and expense were not made in vain.

I am herein confirming our phone discussion on this matter last week, and would appreciate your prompt reply as to the disposition of this matter.

Many thanks for the follow-through. It's not easy for the public to compete with the multibillion dollar, multinationally controlled telecommunications giants, but it would be a damn shame if our meager efforts were thwarted by the people who should represent our interests.

Sincerely,

  
Chester Osheyack
